6. [REDACTED]

7. [REDACTED] The Director, accompanied by Mr. Warner met with Senator Stennis and briefed him on Vietnam. See Memorandum for the Record.

8. [REDACTED] Dr. Wheeler, accompanied by Mr. Warner, met with the Senate Aeronautical and Space Sciences Committee on the Soviet Space Program. See Memorandum for the Record.

9. [REDACTED] Talked with Mr. Blandford, House Armed Services Committee staff, giving him a careful rundown of the facts surrounding Mr. Selden's request for an unclassified statement on Cuban Subversion in Latin America. Mr. Blandford took the position that if anything were to be made available publicly it should be the Armed Services Committee. I inquired of Blandford whether there was any reason why this position of the Committee should not be expressed to Selden. He stated that he could speak for the Committee on this and that he would stand up to Selden on this.

10. [REDACTED] Mr. Brandt of the staff of House Foreign Affairs was advised of the House Armed Services decision. Thereafter, we met with [REDACTED] and went over this. He stated that he would talk to Mr. Rivers or Blandford about this.

Subsequently, Mr. Blandford called stating that he had talked to [REDACTED] about this indicating that since we were so far committed on this, the Armed Services Committee would raise no objection. [REDACTED] has been advised that we will make copies of the paper available tomorrow morning.
